ED. DEMOCRAT—It has been some time since I have seen any thing from this part of the county, and I write thinking that some of the readers of your valuable paper might be interested with a few lines from old Salter Creek, a truly Democratic township. We had a very agreeable surprise a few evenings ago at the residence of A. Metter, in honor of his daughter Ella May, it being her 20th birthday. It was a complete surprise to her to see so many of her old friends and acquaintances come in with the good things. There was about fifty persons present, among them her aunt Amanda Denison, from Ills., who happened to be on a visit to Ohio, she had been absent eight years; also Mr. Rose, of Columbus, the old commercial traveler; Jesse Nigh, of Mount Sterling, O., F. F. Higgins and others. The supper was splendid, and every body went home well satisfied and wishing Miss Ella many happy returns.

The manipulators of the proposed railroad are still busy working up their interest. They have optioned all the oil wells about South Bloomingville, for the purpose of running a furnace with the gas flowing from them. They have also optioned considerable lands having coal and iron ore on them. They say that they have every thing ready to go to work and that they will commence work in a few days.

In regard to the transfer of lands in this township, sold by Lewis Steel, to Jasper N. Morris, 6 acres of land for \$150, also to J. C. Butler, 71 acres for \$1300, all in Salter Creek township. These lands were formerly owned by Enoch Karshner, on Big Pine creek.

The Japanese Village at the Cincinnati Exposition.

Another reduction in excursion rates on the C. W. & B. R. R. Commencing Sep. 27 and until Oct. 9 the C. W. B. will sell excursion tickets to Cincinnati and return at one fare for the round trip with admission to the exposition. Thus the round trip rate from McArthur June is \$4.20 including admission. The tickets will be good returning from four to six days.

Additions and improvements are constantly being made to the exposition, but the latest and best is the Japanese village, 100 Japanese men women and children, in native costume, in their houses, studios and workshops, just as they live and work in Japan. Here you may see them making furniture, silk fabrics and pottery, painting pictures and screens, modelling and finishing in bronze, carving in wood and the like. Then there is the barber who will shave you in American style in a Japanese way, and the ladies of the Tea House who will make you a cup of genuine tea, in fact the whole exhibition is most unique. Each workman is an expert and he uses only material brought from Japan.

This show which the people of San Francisco and Chicago paid high prices to see, is exhibited at the Cincinnati Exposition without extra charge. It is something we may never have an opportunity to see again, and something to remember with pleasure always.
